## WHAT IS

## A MEME TOKEN?

A meme token is basically a cryptocurrency that is associated with a theme, often as a joke rather than a serious one. There are many meme tokens right now. But we all know that the SHIB family holds the revolution for the meme token universe. Shiba is not just a meme token, Shiba is one of us. It began to become more than just an avatar and a representative figure in time. Shiba is a member of the family, and also a glue that attaches us all.

**Frankly to admit, these meme tokens are created by using social media and agendas.**

**What is different with SpaceSHIB is that it has a USE CASE with its NFT and Play2Earn features.**

## PLAY2EARN

By definition, Play2Earn games refer to the concept of gaming in a platform that provides its players with a chance to earn any form of in-game assets that can be transferred as a Fund.

By that, we provide our gamers playing in the virtual universe but earning in the real world.

**Our game will be shoot 'em up style with its gacha gaming features.**

## | SHOOT 'EM UP

There is no consensus as to which design elements compose a shoot 'em up; as some restrict the definition to games featuring spacecraft and certain types of character movements.

## | GACHA GAMING FEATURE

**Gacha Gaming Feature** is to induce players to spend in-game currency to receive a random virtual item. The in-game currency can be gained by gameplay, or by purchasing it from the game publisher using real-world funds.

# NFT AND METAVERSE

NFT, also known as a non-fundable token, is a data unit that confirms that a digital asset is unique and therefore not interchangeable. NFTs can be defined as an unconventional and permanent method of storing artifacts forever. It is stored in a digital ledger called "blockchain". SpaceSHIB will also serve as a DAO of the entire Shiba meme world's NFT collection in the Metaverse.

A metaverse is a visual universe that enables various activities. Exhibitions, auctions, meetings, concerts, and many other activities will be only a few steps away from us in this universe in the future. Of course, Shiba also takes its place in the world of the future.
